- e. Late Friday we received a memo from ZB which indicated his approval of your [ ] paper, which the Director had left with ZB two weeks ago. ZB asked that this memo to him be converted into a memo for the President so that a forthcoming SCC(I) can discuss it (There has been no date as yet established for this meeting). I have talked with [ ] and John McMahon regarding this action and they will have the revised paper ready for review by you and the DCI upon his return Tuesday afternoon. (Rather than risk changing the memo significantly, [ ] is simply going to change the addressee and possibly insert a brief mention of what you hope to accomplish with other governments regarding the [ ] option during your upcoming trip.)
